INGLISH AND CHINESE DICTIONARY WITH THE PUNTI AND MANDARIN PRONUNCIATION.

Au. Anglo-Chinese Dictionary, published at the Daily Press Office. Hongkoug. For comprehensiveness and practical service his Work stants unrivalled. All the new vords which the Chinese have of late years been compelled to coin to express the numerous oblects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature, / Both he Court and Punti pronunciations are given the encourte being experience marked on the heat lisplays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast sconomy of mace achieving a clearness not previously ittained, and dispensing with those vast margins and vacant spaces which have herstofore characterised Chinese publications.

To illustrate the vast scope of the work the ollowing facts are submitted for consideration:-Chalmers Vocabulary contains shout 16,000 Chinese characters, and Madhurst's English and Chinese Dictionary about 100.000; whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published the student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than five-ti-nes as many as any other Dictionary hitheric pub-

For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which

very few indeed of them are perfectly acquainted.
To parties resident in England and interested 3 & 4. Bouverie St., Fleet St. in China it cannot but be invaluable occasion-It comprises upwards of two thousand large 4 Vol. IMPEBIAL QUARTO, Price, \$20.
